

# MRA Auditing for Quality and Compliance

**Ensure Accuracy**

**Improve Revenue Integrity**

**Reduce Risk**

## Achieve All Your Auditing Goals

- Coding audits – Inpatient, Outpatient, Professional, & Emergency
- Compliance audits
- Charge capture audits
- Coding/Charge documentation validation

Today's changing regulations, new services, and the transition to value-based care affect your bottom line in many ways.

MRA can partner with you to design the perfect auditing plan to help you see opportunities and resolve issues quickly wherever they arise.

### MRA's 4-Step Approach

Our customized audits ensure the accuracy and integrity of all your coded data, and provide you with proactive insights for improvement.

**Use data to identify challenges and address them**

**Provide education for coders and providers**

**Establish benchmarks and key performance indicators (KPIs) for coders**

**Improve coding practices to decrease risk**

### Supporting Healthcare Facilities of All Types

Specialty Hospitals

# Compliance Auditing

## Better Insights For Continuous Improvement

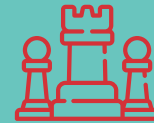

Partnering with MRA helps you meet all of your compliance auditing goals.

With our value-driven approach, we capture meaningful data to reveal hidden trends that impact your claims and denials. Our audit insights empower your team to pinpoint actionable areas of improvement, and provide appropriate steps for success.

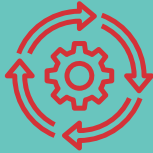

MRA experts can assist your compliance audits in a variety of ways:

**Designing the overall  
audit approach**

**Implementing a partial or  
complete audit**

**Delivering a comprehensive  
executive summary**

**Collaborating to deliver an  
action plan to leadership**

**At MRA, we treat every record like the patient it represents. And we're proud to help our clients better serve their communities.**
