Improve Coding Efficiency and Revenue Integrity

When it comes to your healthcare revenue integrity nothing is more important than effective medical coding. MRA delivers flexible staffing and management for all your medical coding challenges. No matter what your needs are, we assign the exact coding specialists required. Even as your work volumes and staffing needs fluctuate, we can partner with you to manage your entire workload.

5 Ways MRA's Coding Staff Support Services Deliver Higher Quality and Productivity:

Experience

All Coding Staff maintain AHIMA and/or AAPC certifications depending on their area of specialty.

Accuracy

Regular assessments and education ensure our staff meet or beat average productivity guidelines in all areas of coding with 95% or greater coding accuracy.

Account Management

Dedicated account managers to fulfill your needs and provide additional support for a spike in volume or employee absence.

Quarterly Business Reviews

Regular management team meetings to review performance metrics and discuss modifications to services.

Education

Yearly and quarterly coding update webinars provide AHIMA and/or AAPC CEU's.
